

# DESKTOP AND OFFICE 365 MIGRATION SERVICES

**Proven experience to support your migration**

Sogeti's history of helping customers to plan, estimate and execute migrations and desktop upgrades demonstrates our ability to contain costs and refresh obsolete technology in order to deliver the latest capabilities, and meet increasingly demanding service levels. With our experience and proven frameworks and accelerators, our migration services really can fast track your transition to new Microsoft desktop and Office 365 technology, with no detrimental impact to ongoing business activities.

## From desktop migrations and upgrades to moving to Office 365

Depending on the complexity of your migration, you may need to move a very large number of both standard and customised business critical applications. Often a percentage of legacy applications have compliance issues that prevent an application from executing properly due to reliance on deprecated components, incompatibility with Windows resource protection or User Access Control.

No business can afford to take this level of risk particularly with customer-facing or financial applications. That's why, in conjunction with Microsoft, we have developed several solutions to help with all aspects of your Windows migration, including application compatibility testing, application remediation and repackaging, and a 'fast track' cloud migration toolkit to enable the move to Azure and Office 365.

## Frameworks designed to accelerate your migration

Our experience of migrating environments and data to Windows, Office, SQL and more has led us to develop multiple frameworks, designed to streamline the migration process and remove unnecessary headaches.

### RADIUM

Our RADIUM (Rapid Automated Deployment, Imaging and User Migration) solution consists of highly experienced and trained resources, ready to use tools, reusable automation plug-ins, and repeatable approaches of the RADIUM framework. It is a proven approach, developed in conjunction with Microsoft, to provide a flexible and scalable migration framework. It helps us to plan and identify the right level of migration investment to make, taking into account a business' current-state solution:

## The benefits of migrating with Sogeti

- Microsoft know how leads to a faster more accurate migration, without the risk
- Reputable partner with a strong track record in migration services
- Multiple frameworks and accelerators that can fast track your success
- Automation potential with industry leading migration tools
- Support throughout; pre, during and post project
- Improved productivity and reduced total cost of ownership

**"NCR is going through growth by acquisition predominantly of software based organisations over the past couple of years, and Sogeti has been a key partner in helping us integrate those new companies."**

**Bill Van Curen**  
CIO  
NCR

### Windows Impact Testing

Our Windows Impact Testing solution provides early insight into compliance of each and every one of your applications, MSI packages and web applications to ensure the smooth transition to a new operating system.

### SMaRT™ migration methodology

We also use a proprietary migration methodology called SMaRT™ (Sogeti Migration and Re-architecture Technology) which combines best-of-breed tools like Office Converter with Sogeti's methodologies, best practices and trained experts, to streamline the migration of key Microsoft Office files and applications.

### Cloud migration toolkit

Our integrated cloud migration toolkit enables you to make Office 365 a key component of your cloud adoption strategy so that your organisation can realise the benefits of the cloud whilst retaining a familiar user experience and robust security features.

### Sogeti and Microsoft

Sogeti is one of the most regarded Microsoft Global Alliance Partners and specialist of Office 365 deployments, having won consecutive Microsoft awards for delivering excellence in desktop solutions including Microsoft's 2013 Messaging Partner, Premium Partner for Notes to Exchange migration, and Office 365 Cloud Deploy and Accelerate Partner of the year.

With more than 2,000 consultants worldwide who specialise in desktop, systems management, and virtualisation; we have the scale to tackle large deployments and manage significant numbers of desktops.

By combining innovative Microsoft solutions with our proven service excellence, our migration services will put you on the front foot and give you a roadmap to enhanced business productivity and return.

### About Sogeti

Sogeti is a leading provider of local, professional technology services and a global Microsoft Alliance Partner. We specialise in Application, Infrastructure and Engineering Services, offering cutting-edge solutions around Application Development, Testing, Mobile, cloud, and BI and Analytics, combining world class methodologies and our global delivery model, Rightshore®. Sogeti brings together more than 20,000 professionals in 15 countries and has a strong local presence in over 100 locations in Europe, USA and India. Sogeti is a wholly-owned subsidiary of Cap Gemini S.A., listed on the Paris Stock Exchange.
